# Unlocking the transformative power of Climate Change Education

**SIEMENS** | Stiftung

## Office For Climate Education (OCE)

### CREATION & MISSION

- Created in 2018 in response to Article 12 of the Paris Agreement
- Based in Paris - Sorbonne University
- An operational team of 20 members
- A network of ~ 70 partners in ~ 30 countries

*OCE's mission is to support the implementation of **quality climate change education** worldwide in order to bridge the gap between the scientific and educational worlds.*

Under the auspices of

IPCC Observer Organization

Co-coordinator of the

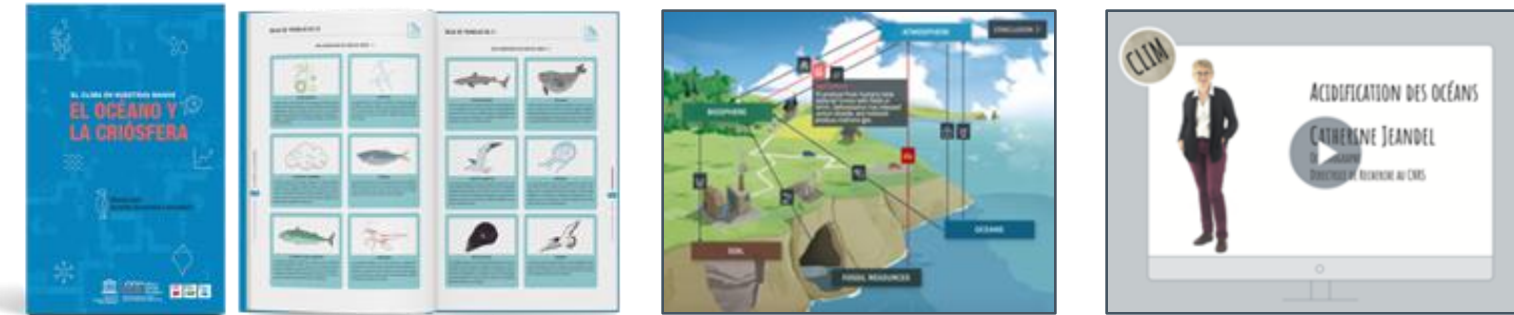

# From the classroom to the COP!

## Design of high-quality CC education resources

for teachers, trainers, students, policy makers

100+ resources based on IPCC reports

## Professional development

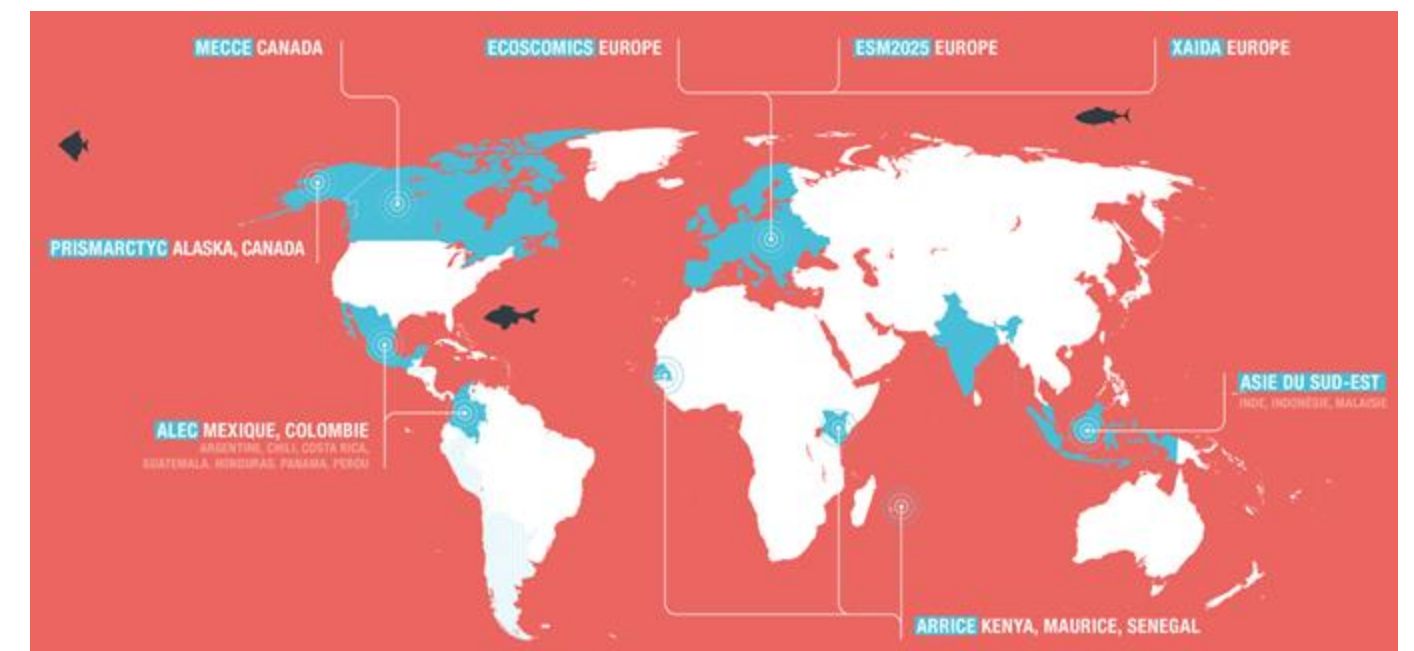

for teachers, trainers, curriculum designers, policy makers

100.000+ people trained (30+ hours)

## Regional & national pilot projects

In Latin America, Africa, Europe (and Asia soon!)

3 million students involved

## Research & evaluation

Eco-anxiety, future literacy, impact evaluation

# The challenges we face

## We know what works: why not a full implementation yet?

### Education crisis

- Climate change education (CCE) & foundational learning?

### Lack of funding

- Education world not familiar with climate world
- 1.5% of the climate funds are allocated to education (World Bank 2024)

### Conceptual challenges

- Confusion between Climate change education (CCE) and Education for sustainable development (ESD)
- Minimal integration into school curricula
- Sometimes, low quality (no local relevance, catastrophism...)

### No tools for policymakers

- Research & evaluation

## Good news: times are changing!
